

# HF 100 IONIC AIR PURIFIER

effective | silent | safe | affordable

*An ideal purifier for small areas such as bedrooms and office space.*

Generates millions of negative ions

Silent operation (no moving parts)

No filter replacement

Compact and elegant design

Low power consumption

Effective for 160 ft<sup>2</sup>

# HF 100 IONIC AIR PURIFIER

The HF100 fastens securely to most surfaces in the car with firm adhesive tape and the 12V adapter (supplied with the purifier) plugs directly into the car's cigarette lighter adapter.

With no fan or moving parts the HF 100 circulates purified air silently and efficiently. In 20 seconds, the HF 100 can purify the smoky air in an enclosed glass cover.

With a cotton swab dipped in alcohol, the collector's plate and electric needles inside the purifier can be quickly and easily cleaned.

Available colours:

Black Velvet

Mahogany

## SPECIFICATIONS

Model	HF 100
Rated Voltage	12V DC / 110-120V 50-60 Hz Adapter
Power consumption	3.4 W
Ion output	MAX 500,000/cm <sup>3</sup>
Active Oxygen output	approx. 0.015- 0.04 ppm
Dimension	8.2"(L) x 5.0"(W) x 2.8"(H)
Weight	750 g (1.65 lb)
Applicable Area	160 ft <sup>2</sup> (15 m <sup>2</sup> )

**Heaven Fresh**<sup>TM</sup>

*Innovative Devices  
for a Healthy Life*

*Peace of Mind for Your Family*

The HF 100 helps to remove pollutants, allergens and germs from the air right down to the sub micron level (less than 0.015 microns). The silent and filter-less unit is effective at removing airborne viruses, bacteria, mould spores, fumes, odours, cigarette smoke, dust, and pollen all without a fan or a filter. In addition, the HF 100 floods the air with health beneficial negative ions that have been found to make people feel better and stay more alert.
